The overlay process is currently scheduled to take place daily beginning Thursday, March 3rd, and will take approximately 2-3 weeks to complete. During the mill/overlay operations, business and resident access will be maintained; however, traffic will be restricted. Side streets and driveways will be maintained except when the work crosses driveways or access points. Vehicular access to driveways and side streets will not be permitted for short periods (30 minutes or less). It is important for the quality of the overlay that vehicles do not immediately travel on it; therefore, construction crews may block driveways or direct travelers for a short time.

Conceptual Analysis of Possible Western Area Branch Library

In October 2015, the Glendale City Council provided direction to explore the possibility of constructing and opening a modified version of a planned Western Area Branch Library to serve the residents of Glendale.

The Library Advisory Board is hosting a series of public meetings to gather community input and feedback regarding preliminary design concepts for the two proposed sites. You can review and comment on the proposed floor plans, ask questions of the architect and learn about the planned scope of library services.
